The AFL (Applied Foreign Languages) field of study is a multi-disciplinary, career-focused curriculum that enables students to master two foreign languages studied in equal measure (English and Spanish). It differs from the LLCE (Foreign languages, literatures and cultures) field of study, which is based on the study of a single language from a more theoretical and literary perspective.

The Applied Foreign Languages (AFL) track stands out for its multi-disciplinary, professionally-oriented programme. The study of languages forms the core of the curriculum. The aim of the track is to train linguists with knowledge of the languages and cultures studied, knowledge of the fields of application and linguistic and translation competencies, as well as computer competencies. The specific focus of the AFL track at Paris-Saclay is to train students to work as translators in industry or in the audiovisual sector. Agreements signed in connection with the curriculum enable international mobility, both academic and professional. Thanks to these agreements, students can benefit from linguistic and technical immersion in the audiovisual world.

Objectives

The focus on AFL at Paris-Saclay is the audiovisual translation sector. From the second year onwards, specific courses are offered to train translators for the audiovisual sector. Of course, the aim is also to open up opportunities for students in other sectors, in particular tourism, teaching, commerce, communication and international relations.
