

Title	Speaker
History of fertility preservation	Jacques Donnez
Impact of chemotherapy on the ovarian function	Richard Anderson
Impact of targeted therapies on the ovarian function	Patricia Pautier
Interpretation of a semen analysis	Marcos Meseguer
Impact of chemotherapy on testicular function	Jan Bernd Stukenborg
Fertility after childhood and adolescent cancer	Hamish Wallace
Folliculogenesis	Frank Brookmans
Impact of radiation therapy on male fertility	Francesca de Felice
Radiation therapy and female fertility	Cyrus Chargari
Infertility: epidemiologic aspects	CM Cox
Spermatogenesis	Calista Mulder
Assessment of the ovarian function and impact on fertility and its preservation	Antonio La Marca

FEMALE FERTILITY PRESERVATION

Oocyte vitrification	Ana Cobo
Embryo vitrification for fertility preservation	Laura Rienzi
Ovarian tissue cryopreservation from the lab	Claus Yding Andersen
GnRH agonist for fertility preservation	Anna Marklung
Ovarian stimulation for fertility preservation: general considerations and safety	Christophe Blockeel
Dual stimulation for fertility preservation	Filipo Ubladi
Random start for fertility preservation	Ozgur Oktem
Letrozole during ovarian stimulation	Kutluk Oktay
Anti estrogen therapy during ovarian stimulation	Moran Shapira
Progesterone primed ovarian stimulation	Ernesto Bosh
Ovarian tissue transplantation: technical aspects , results, safety	Marie Madeleine Dolmans
Regulatory mechanisms in human in vitro maturation	RG Chian
In vitro maturation for fertility preservation	Michel de Vos
Uterus transplantation	Mats Branström
Ovarian transposition	Aljosa Mandic
Uterus transposition	Sebastien Gouy
In vitro folliculogenesis	Evelyn Telfer

MALE FERTILITY PRESERVATION

Sperm cryopreservation for fertility preservation	Michael Rimmer
Onco TESE	Robert Brannigan
Fertility preservation in boys and male adolescents	Rod Mitchell
Testicular tissue transplantation	Christine Wyns
In vitro spermatogenesis	Ellen Goossens

FERTILITY PRESERVATION IN SPECIFIC SITUATIONS

Social egg freezing	Pasquale Patrizio
Fertility preservation in benign gynecologic diseases	Kirsten Macklon
Fertility preservation and endometriosis	Edgardo Somigliana
Fertility preservation in case of targeted therapy	Isabelle Demeestere
Fertility preservation in genetic diseases	Richard Anderson
Fertility preservation in hematologic diseases	Anna Marklund
Fertility preservation in breast cancer	Michael Grynberg 1,5
Fertility preservation in colon rectum cancer	Michael Grynberg 1,5
Fertility preservation in cervix cancer	Jan Persson
Fertility preservation in endometrial cancer	Nadeem Abu Rustum
Fertility preservation in ovarian cancer and borderline ovarian tumors	Philippe Morice 1,5
Fertility preservation in women with fibroids and adenomyosis	Tomaso Falcone
Fertility preservation in prepubertal girls and adolescents	Claudia Massarotti
Fertility preservation in Klinefelter syndrome	Peter Schlegel
Fertility preservation in autoimmune diseases	Michael von Wolff
Fertility preservation in transgender patients	Kenny Rodriguez Wallberg
Cancer during pregnancy: management and implementation of fertility preservation	Frederic Amant

GENERAL CONSIDERATIONS

Unmet needs in ovarian tissue cryopreservation and transplantation	Dror Meirow
Oncogenetic and impact on fertility preservation	Matteo Lambertini
Long-term outcomes of male fertility preservation	Nathalie Rives
Long-term outcomes of female fertility preservation	Vesna Kesic
Obstetrical outcomes after cancer (including pelvic radiation therapy)	Raoul Reulen
Post cancer fertility preservation	Ane Gerda Eriksson
Detection of malignant cells on ovarian tissue	Marie Madeleine Dolmans
PGT-A in oncofertility	Glenn Schattman
Oocyte donation	Nikos Polyzos
Sperm donation	Paolo Emanuele Levi-Setti
Cancer and sexuality	Aylen Vanessa Ospina Serrano
Legal aspects of fertility preservation	Ido Alon
Psychologic aspects of fertility preservation	Mariana Moura Ramos
Ethical aspects of fertility preservation	Guido Pennings
Surrogacy	Evelyna Manvelyan
Patients point of view about fertility preservation	Kim Hulscher
